

ANNABEL TULLY

NOVEMBER 2011

CURRICULUM VITAE

Born in Brisbane, 1972, Annabel Tully studied education at Griffith University, Brisbane and continued her career as teacher and artist as she travelled throughout Australia and abroad, ever searching for a greater appreciation of the surrounding landscape and the people to whom it inhabits. In 2007, *Bunginderry Artists Camp* added another strong arm to her business.

ARTISTS' STATEMENT

I live in, and travel extensively through, arid Australia. I aim to be respectful of the close kinship that humans experience with their homeland. In doing this I am quite explicit in my choice of special places, ones of meaning to the inhabitant. Each technique and choice of medium in each narrative responds to the raw experience of being at one with the land.
